

A unique event bringing together
life science programmers
to work collaboratively on
projects for 5 days of
intensive hacking

5th BIOHACKATHON EUROPE

7-11 November 2022

Châteauform' Les
Berges de Seine
Paris | France

SUBMIT
YOUR PROJECT
TO ACCELERATE
RESULTS!

Deadline
8 April 2022

Submit a project proposal

Your company can submit a hacking project to be developed during the Hackathon. Projects can be at any stage of development, from blue-sky ideas to more mature projects.

Register and attend

From novice to expert, we welcome **everyone**. The diverse mix of people ensures that everyone who attends leaves with valuable new experiences.

Working principles

The BioHackathon follows **Open Science** and **Open Innovation** principles.
